

## Continuous Job Network TV Channel (CJN)

The Continuous Job Network TV Channel (CJN) is an innovative concept designed to provide a 24/7 platform focused on jobs, employability, corporate branding, and career development.

In today's fast-paced world, where information is available at our fingertips 24/7, it's essential to adapt and provide services that cater to the evolving needs of society. The Continuous Job Network TV Channel (CJN) is an innovative concept aimed at revolutionizing the job market by offering a dedicated 24x7 platform focused on jobs, employability, corporate branding, and career development.

**Driving Concept:** The driving concept behind CJN is to leverage the success of continuous programming in various domains, such as 24-hour news channels like CNN and 24-hour shopping channels like QVC, HSN, and Naaptol. Just as these channels provide uninterrupted content to cater to the needs of their audiences, CJN will be dedicated to job seekers, employers, and individuals looking to enhance their career prospects.

**Vision:** Our vision is to create an ecosystem where students excel, educators thrive, and employers find the talent they need. This will facilitate seamless interaction, learning, and career growth for all stakeholders, accessible to a global audience.

### Key Focus Areas of CJN:

- 1) **Career Development and Growth:** CJN will focus on providing resources and guidance for career development, helping individuals advance in their careers and achieve long-term success. This includes expert advice on building a strong career path, setting achievable goals, and navigating career transitions.
- 2) **Corporate Branding and Recruitment:** Employers can leverage CJN to enhance their corporate branding and attract top talent. The platform will feature interviews, case studies, and expert insights on how companies can effectively identify and recruit the best candidates. This will include strategies for creating a compelling employer brand, optimizing recruitment processes, and retaining valuable employees.
- 3) **Educational Content and Skill Development:** CJN will offer a wide range of educational content designed to enhance employability. This includes skill development programs, workshops, webinars, and courses on essential job market skills. By collaborating with educational institutions and industry experts, CJN will ensure that job seekers have access to high-quality learning resources.
- 4) **Live Interactions and Networking:** The channel will host live Q&A sessions, interviews with industry leaders, and interactive discussions. These live interactions will provide viewers with the opportunity to engage directly with experts, ask questions, and gain valuable insights. Networking opportunities will also be a key focus, allowing professionals to connect, share experiences, and grow their networks.
- 5) **Archived and Searchable Video Shows:** All video content on CJN will be archived and searchable, allowing users to access relevant information and advice at any time. This feature will ensure that viewers can revisit important content, stay informed about industry trends, and continuously learn at their own pace.
- 6) **Job Listings and Career Advice:** CJN will provide continuous updates on job openings

across various industries and locations. In addition, the channel will offer career advice, resume-building tips, interview preparation strategies, and guidance on how to navigate the job market effectively.

7) Finding the Right Team Member: Employers will be guided on how to identify and attract top talent through various tools and resources provided by CJN. This will include expert interviews, case studies, and insights into the latest recruitment trends, helping businesses build strong, effective teams.

#### Benefits of CJN:

1) Accessibility: CJN will be accessible to a global audience, breaking down geographical barriers in job searching and recruitment. This ensures that both job seekers and employers can connect and interact regardless of their location, expanding opportunities for all involved.

2) Continuous Learning: The platform will provide continuous educational content, allowing job seekers and employers to stay updated with industry trends. This focus on lifelong learning will empower individuals to adapt to changing job market demands and remain competitive in their careers.

3) Cost-Effective Branding and Recruitment: For businesses, CJN offers an economical way to showcase their brand and job opportunities. By reaching a global audience through a dedicated platform, companies can effectively communicate their values, culture, and career opportunities without the high costs associated with traditional recruitment and advertising methods.

4) Efficiency in Job Searching: Job seekers will benefit from the efficiency of CJN, as they can find relevant job listings and resources without time constraints. The platform's 24/7 availability ensures that users can access the information they need at their convenience, streamlining the job search process and making it easier to find suitable employment opportunities.

#### Conclusion:

The Continuous Job Network TV Channel (CJN) is strategically designed to bridge the gap between job seekers and employers by offering an unprecedented 24x7 platform dedicated to career development, job hunting, and corporate branding. By providing continuous programming, CJN ensures that users have access to valuable content around the clock, catering to the diverse needs of a global audience.

This innovative platform is not just about job listings; it is about creating an ecosystem where career growth, skill development, and corporate engagement are at the forefront. CJN's commitment to offering a wide range of content—from expert career advice and skill-building workshops to live interactions and employer branding opportunities—makes it a comprehensive resource for anyone involved in the job market.

#### Various Shows Planned:

1) Company Info Show: This show is designed to give viewers a comprehensive overview of a specific company, helping them understand the organization's culture, values, products, and services. It also highlights the company's achievements, future goals, and any other significant information that might interest potential employees, customers, or business

partners.

2) Job Info Show: The Job Info Show focuses on employment opportunities, career development, and the latest trends in the job market. It's a valuable resource for job seekers, career changers, and professionals looking to advance their careers.

3) College Info Show: A College Info Show is a program designed to provide information about colleges, universities and higher education options. This type of show is tailored to students, parents, and individuals interested in pursuing further education. The goal is to offer insights, guidance, and relevant information to help prospective students make informed decisions about their academic journey.

4) TPO Showcase: A Training and Placement Officer (TPO) Showcase Show is a program specifically tailored to highlight the role and activities of a TPO within an educational institution or organization. The primary objective of this show is to showcase the efforts and achievements of the TPO in facilitating training programs, internships and job placements for students. The show aims to inform students, employers and the broader community about the valuable work done by the TPO in enhancing students' employability and connecting them with job opportunities.

5) Polishing School Training Programs: A Polishing School Show is a video series designed to provide guidance, education, and practical tips on personal and professional development. This type of show is dedicated to helping individuals refine and enhance their skills, behaviors and overall image to succeed in various aspects of life.

6) Job News Show: A Job News Show is a program dedicated to providing the latest and most relevant news and information related to the job market, employment trends and career-related developments. The show serves as a valuable resource for job seekers, professionals and individuals interested in staying informed about the dynamic landscape of the workforce.

7) Internship Available: An Internship Available Show is a specialized program designed to showcase and provide information about internship opportunities across various industries and sectors. This type of show is geared towards students, recent graduates, and individuals seeking hands-on experience in their chosen fields. The primary goal is to connect potential interns with organizations offering internship programs and to provide insights and advice on the application process.

8) Infomercial on Different Topics: These infomercials are designed to present valuable products or services that cater to the career development, job searching, and professional growth needs of CJN's target audience. The infomercials aim to provide practical solutions and tools for job seekers, students, educators, and professionals, helping them to enhance their skills and achieve their career goals. Some of the examples are:

- \* Resume Building Software
- \* Interview Preparation Course
- \* Online Learning Platforms
- \* Career Assessment Tools
- \* Career Coaching Services

9) Major Show: Shows that can garner significant attention with titles such as Programming Idol, Yuva Mann ki Aawaj, Campus To Corporate, Diamond Minds in Rural India and Talent Stars. These programs not only entertain but also offer diverse content, ranging from

showcasing programming talents and addressing the youth's voice to exploring the journey from campus life to the corporate world. Additionally, Diamond Minds in Rural India highlights the brilliance found in rural areas, while Talent Stars serves as a platform to showcase exceptional talents.

10) Minor Show: Minor Shows are smaller-scale versions of Major Shows, designed to test the market and gauge audience interest before potentially expanding into full-fledged Major Shows. These shows allow for experimentation with content and format while building a loyal viewership base.

#### Target Delivery Methods:

- **Broadcast TV:** This method involves using traditional television channels to reach a broad audience. It's ideal for delivering content to a wide demographic, especially in regions with high television viewership.
- **Campus TV:** This approach targets students directly by partnering with educational institutions to broadcast content on their internal TV networks. It ensures that the content reaches a focused audience within campuses, providing educational or informational programming tailored to students.
- **College Channels:** Similar to Campus TV, this method involves direct engagement with colleges to distribute content through their channels. It allows for more specific targeting, ensuring that the material is relevant to college students and faculty.
- **AICTE Channels:** In collaboration with the All India Council for Technical Education (AICTE), this method leverages channels dedicated to technical education. It focuses on reaching students, educators, and professionals in the field of technical and engineering education.
- **UGC Channels:** Partnering with the University Grants Commission (UGC), this method is aimed at higher education institutions. The content distributed through UGC channels is usually academic, targeting university students and faculty across a wide range of disciplines.
- **Swayam Prabha Channels:** This method utilizes Swayam Prabha, a group of 34 DTH channels that broadcast high-quality educational content 24/7. It is designed to reach students across the country, particularly in remote areas where internet access may be limited.
- **Internet TV:** Digital streaming platforms are used in this method to reach a wider audience beyond traditional TV. This allows for on-demand access to content, making it more accessible to people with internet connectivity, especially younger, tech-savvy audiences.

#### Strategy and Objective:

- \* Diverse approaches to cater to varied audience demographics.
- \* Seamless integration into established educational and broadcast networks.
- \* Leveraging digital platforms for modern viewers.
- \* Maximize CJN TV's accessibility and impact across diverse channels.
- \* Empower job seekers, employers, and educational institutions with continuous career-related content.

#### User interaction and engagement with CJN:

##### Interaction Strategies:

1. **Build AI for Realtime Feedback:** CJN implements AI technology to gather instant feedback from users. This enhances the user experience by understanding their preferences and needs, allowing for continuous improvement of content.
2. **Companion App: "FRIENDS OF CJN":** The "FRIENDS OF CJN" app is a dedicated

platform for seamless engagement with CJN content. It allows viewers to provide real-time feedback and interact with other users while watching broadcasts.

3. Realtime Interaction Tools: CJN leverages popular platforms like Zoom, Google Meet, Skype, JITSI, WhatsApp Video, and Telegram to facilitate live discussions, Q&A sessions, and audience engagement.

4. Protsahan Mudra Rewards: The Protsahan Mudra Rewards program incentivizes user participation by offering rewards for watching CJN shows, actively participating in programs, and providing feedback or suggestions.

Objectives:

- Foster an interactive CJN TV community.
- Encourage real-time engagement for better content and user experience.
- Recognize and reward active participation and valuable feedback.

CJN Show Ideas:

SAMPLE CATEGORIES OF SHOW IDEAS:

#### CJN Proposed Show Partners

1. College Participation: Engaging with educational institutions to source content and talent for shows. This includes collaborating on educational topics, student involvement, and showcasing college initiatives.
2. Media Colleges: Collaborating with colleges specializing in media studies to provide expertise in content creation, production techniques, and media-related insights.
3. Mass Communication Colleges: Partnering with institutions offering mass communication programs.
4. Journalism Colleges: Building connections with colleges focused on journalism education.
5. Technology Colleges: Involving technical institutes in content development and innovation.
6. AICTE Participation: Partnering with All India Council for Technical Education for educational content.
7. UGC Participation: Collaboration with University Grants Commission for broader reach.
8. NETF Members: Engaging with members of the National Education Task Force for insights and support.
9. Employers: Partnering with companies to feature job openings and industry insights.
10. Advertisers: Collaborating with advertisers for sponsorship and promotional opportunities.

11. Employment Agencies: Working with agencies specializing in job placement and recruitment.
12. International Colleges: Expanding reach by connecting with colleges and institutions globally.

#### CJN Team Members Required:

1. Technology: Tech students and experts responsible for managing the platform, streaming services, and AI integration. Their role includes ensuring seamless technical operations, implementing new technologies, and maintaining the digital infrastructure of CJN TV.
2. Marketing: Creative professionals tasked with promoting CJN TV, developing partnerships, and engaging with the audience. Their focus is on increasing visibility, creating marketing campaigns, and building brand recognition.
3. Program Scheduling: A team of students and professionals responsible for planning and scheduling show content.
4. Programmers – TV Programming: Skilled programmers who curate, organize, and present TV content. They work on selecting shows, arranging the lineup, and making sure that the programming aligns with the audience's interests and CJN TV's objectives.
5. Production Team: A comprehensive team required to manage the production of shows. This includes several key roles:

- \* Camera Operators: Visual experts responsible for high-quality video capture, ensuring professional-grade footage for all shows.

- \* Editors (Video and Audio): Editors focused on refining video and audio to ensure top-notch quality.

- \* Script Writers: Creative writers tasked with developing engaging and compelling content.

- \* Director: The leader who guides the overall production process. The director oversees the creative vision, coordinates the production team, and ensures that the show meets its objectives.

- \* Assistants: Support staff who handle various production tasks, providing necessary assistance to the main production team. Their roles include managing equipment, organizing logistics, and ensuring smooth operations during filming and editing.
